MAXREVO

1% to platinum, up to 94% efficiency

80 PLUS GOLD

real ErP Lot 6 ready

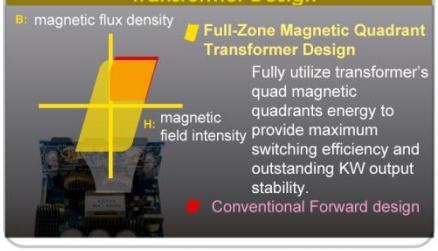
1350W

EMR1350EWT

REVOLUTIONARY. MAX WATTAGE. MAX EFFICIENCY.

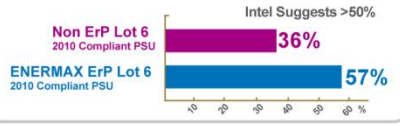
ENERMAX enters the heavyweight class with its new MaxRevo, high-performance PSU specially designed for multi-GPU systems, industrial PC, workstations and servers. It complies with the strictest standards for server PSU, and is equipped with six powerful 12V rails for a safe and stable supply of power to today's high-end systems with full modular design for easy customized use on various peripheral GPU settings.
MaxRevo incorporates the Copper-Bridge Array transmission technology to replace traditional wires, which offers four times wider and shorter transmission path, and results in up to 3% improved regulation that ensures system stability and clean DC output quality.
ENERMAX further advanced the topology of its successful MODU87+ and PRO87+ series to reduce energy losses, along with its patented high magnetic power density transformer to provide maximum switching efficiency and outstanding KW output stability, that enables PSU to attain up to 94% peak efficiency (80 PLUS® Gold standard). The MaxRevo signfies ENERMAX's commitment to lead the industry with innovative and high-quality power supplies, and will be available in powerful 1350W.

Full-Zone Magnetic Quadrant Transformer Design

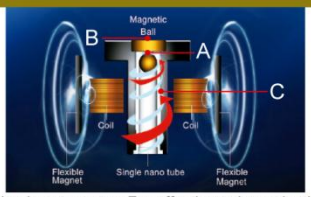


ErP Lot 6 2010 ready!

Advanced +5Vsb circuitry with up to 20% improved efficiency compared to generic designs helps your system to meet ErP Lot 6 2010 (AC < 1W at standby) requirement.
*With ErP Lot 6 enabled motherboard.



Twister Bearing Fan



A Minimal contact area For effective noise reduction
B Rotor with integrated magnet for frictionless motion
C Self-lubricating bearing sleeve for longer lifetime

Current Bridge Array

Offer wide current conduction paths to greatly reduce resistance losses, creating neat and low air impedance for PCB arrangement.

Patented High Density Transformer

Innovative design boosts transformer coreutilization rate and reduce overall dimension.

Modular ready!

Full modular cable design for easy customized use for various peripheral settings.

Available in May 2011, MSRP US$319 **Media contact:** media@ecomastertek.com
